---

This memo is submitted in reference to the April 13, 2022 enrollment report.

As of April 13, 2022, there are 14,467 students attending Lowell Public Schools.

Following our standard format, the April 13 enrollment report includes other categories of enrollment that the district is responsible for monitoring, placing and/or supporting such as home schooled students, out of district student placements, community pre-K student program placements, and students referred for special education program evaluation, as well as students in the Family Resource Center category awaiting school assignment. When combining all of these categories together, the total enrollment on the March enrollment report adds up to 15,263.

As of Wednesday morning, April 13, the total number of K-12 students in the FRC category was 45. Additionally, 55 pre-K students are pre-registered for the 2022-2023 school year and 2 remain in the EC other category which adds up to a total of 102 in the FRC category. On this date, of the 45 K-12 students in the FRC category, 24 students have been provided an assignment and are ready to attend school. Of the remaining 21 students, 4 students are awaiting medical clearance, 15 are registrants needing to submit required documentation, one (1) is an English Learner student who needs to complete their scheduled language testing, and one (1) student is awaiting placement by the Special Education department.
